### DETAILED ACTION

Due to the complex nature of the claims, no request for an oral election is being made. Please see MPEP 812.01.

#### *Election/Restrictions*

This application contains claims directed to the following patentably distinct species:

- i) cooling agent is menthol;
- ii) cooling agent is peppermint oil;
- iii) cooling agent is corn mint oil;
- iv) cooling agent is Eucalyptus oil;
- v) cooling agent is Citronella oil;
- vi) cooling agent is Camphor oil; and
- vii) cooling agent is Cinnamon oil.

The species are independent or distinct because they have separate status in their art as shown by different and separate subject matter for inventive effort.

Applicant is required under 35 U.S.C. 121 to elect a single disclosed species for prosecution on the merits to which the claims shall be restricted if no generic claim is finally held to be allowable. Currently, claims 1-15 are generic.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable thereon, including any claims subsequently added. An

argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which depend from or otherwise require all the limitations of an allowable generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Upon the election of species by the applicants from claims 1-7, claims 8-13 will examine with the same elected oil. For example, if the applicants elect peppermint oil from claim 2, then claim 8 will be examined. Here is another example, if the applicants elect menthol from claim 1, then claim 15 will be examined.
